

## Who are we?

IQ-Medicon is offering all new and innovative products in the medical field. Became the exclusive representative for RER (and his UVRER brand) world-class company has been the first company in its market to specialize in water, air and surface treatment by ultraviolet technology/photocatalysis.

From their conception to their realization, we develop quality products, innovative, resulting from industrial research and French university, perfectly adaptable to your specific needs.

## Our products

# Water : industries and collectivities

FTA / FKA

9m<sup>3</sup>/h to 1500m<sup>3</sup>/h

Slamming valves, inspection door and drain valve, electronic ballast, lamp visual witness...

HDPE

2,80m<sup>3</sup>/h to 700m<sup>3</sup>/h

Drain valve, air drain, IP55 electrical box, electronic ballast, lamp witness, electromechanical hour counter...

HM

1m<sup>3</sup>/h to 3,60m<sup>3</sup>/h

Drain valve, M12 extension in 2M, standard or industrial electrical box, protection fuse, switch On/Off...

### Certified ACS UV

FZI 230B ACS UV

14m<sup>3</sup>/h

Sampling valve, inspection door and drain valve...

### Options and filtration

OPTIONS & FILTRATION

Filters, sensors...

### Tailor-made installations

TAILOR-MADE INSTALLATIONS

What do you need?

# Air treatment

**HEGOA 50 & 100**

50m<sup>3</sup>/h to 100m<sup>3</sup>/h

**Household, public areas, healthcare, industries**

One speed, nomad system...

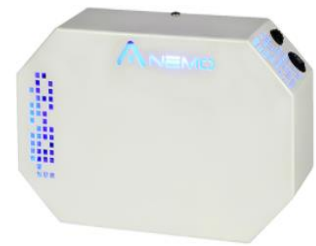

**SILUXE 50 & 100**

30m<sup>3</sup>/h to 100m<sup>3</sup>/h

**Household, public areas, healthcare, industries**

Two speeds, time meter, LED customization, nomad System (wheel)...

**BORA VICHY**

7m<sup>3</sup>/h to 14m<sup>3</sup>/h

**Household, public areas, healthcare, industries**

Two speed, white color in standard version...

**HEGOA 500**

500m<sup>3</sup>/h

**Public areas, healthcare, industries**

One speed, time meter, treatment optimized thanks to a double reactor...

**HEGOA 800**

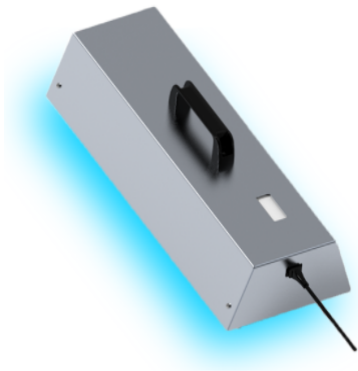

800m<sup>3</sup>/h

**Public areas, healthcare, industries**

One speed, time meter, treatment optimized thanks to a double reactor...

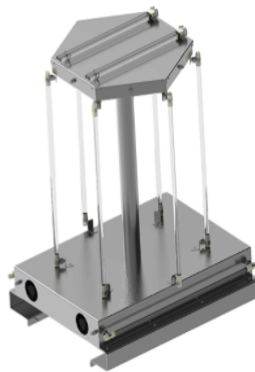

# Surface disinfection

Application examples

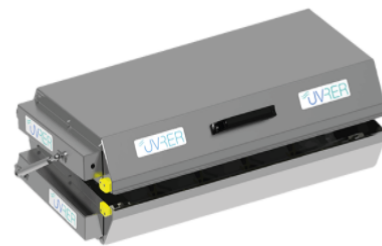

UV-CLEANER

Disinfection of small and medium-sized surfaces.
